

# SMITHS' PROGRAMMING STUDIO

---

## **PRIVACY POLICY**

We know that you care how information about you is used and shared, and we appreciate your trust that we will do so carefully and sensibly. By visiting our website, you are accepting the practices described in this Privacy Policy.

### **What personal information about clients does Smiths' Programming Studio gather?**

The information we learn from clients help us to personalize and continually improve their web surfing experience. Here are the types of information we gather.

- **Information You Give Us:** We receive and store any information you enter on our website or give us in any other way. You can choose not to provide certain information, but then you might not be able to take advantage of many of our features and privileges. We use the information that you provide for such purposes as responding to your requests, communicating with you and improving your browsing experience.
- **Email Communications:** To help us make e-mails more useful and interesting, we receive notifications when you make requests, ask questions and more. This is also our primary method of communication.

### **Does Smiths' Programming Studio share the information it receives?**

Information about our clients is an important part of our business, and we are not in the business of selling it to others.

### **Are children allowed to use this website?**

Smiths' Programming Studio does not facilitate child friendly transactions; therefore, if you are under 18, you may use the website only with the involvement of a parent or guardian.

### **Examples of information collected (Information You Give Us)**

You provide us with information when you post, make requests, participate in a contest or questionnaire and communicate with us. You provide us with brief information, which includes your name, gender, date of birth, address, contact numbers, country, email address and business or organization name and phone number. When making payments, a valid form of identification must be presented. This is solely for the purpose of security. We must secure the business transactions and also your transactions from individuals or software systems that may attempt to commit fraud or perform other illegal acts.
